### 3. App logout

Take off the watch from your wrist after logging out of the application, i.e., when the list of users is displayed (see point 1).

4. User alarm (panic button)

#### 5. Pre-alarm canceling

When an alarm is triggered based on sensor data, the socalled pre-alarm occurs. It lasts until the red line rewrites the entire circle.

Until then, the prealarm can be canceled.

The pre-alarm can be canceled by holding down your finger on the display until the white bar rewrites the entire circle.

6. Alarm

#### 7. Terminating alarm on the watch
